

***2006 Student Rainforest Fund
Ethnobotany Adventure
The Amazon, Machu Picchu & Lake Titicaca***

The Expedition begins....

Monday, May 29 thru Wednesday, June 7, 2006

Dear Patron:

I am proud to announce that for the eleventh consecutive year, the Student Rainforest Fund will help to provide the means for over twenty pharmacy, naturopathic and medical students to travel to the rain forest to study natural products and ethnopharmacy. This will be our most ambitious expedition- to the deep Amazon rain forests of Southern Peru.

My natural medicine pharmacy called NutriFARMACY is one only all natural pharmacy in all of Western Pennsylvania, and eastern Ohio and West Virginia. We have been selling quality vitamins, minerals, herbs and botanicals since 1997. Please visit our website at www.nutrifarmacy.com. Our support for students interested in holistic healing and natural medicine is unwavering. The rainforest is the perfect classroom.

SRF would truly appreciate if your company would consider donating to our non-profit, educational FUND that benefits American college students who study the health professions to have this once-in-a-lifetime experience. As I'm sure you are aware these are the very students who will most likely use your company's products in the future, for they have a deep interest and commitment to practicing pharmacy or medicine in a more holistic manner. Your company will be

advertised and made known to the students that you generously contributed to their successful expedition.

Since the expenses of this trip far exceed any of our past 10 trips, I hope that you can generously support our efforts this year.

I also hope that your company will continue to be an integral part of SRF in future expeditions. We have already visited Belize, Costa Rica, and Peru and plan future trips to Suriname and possibly Africa.

You and I both know that this kind of student endeavor CHANGES lives- for the better! Thank you for supporting our vision, and I welcome any comments or suggestions you have regarding the SRF program.

Respectfully Yours,

Dan Wagner, Pharm.D, MBA, SRF President
Steve Morris, ND, AHP, Vice President
